2008
AKEI ENDORSED
EXHIBITION DIRECTORY

Exhibition Endorsement

AKEI has introduced the "Exhibition Endorsement" in an effort to provide credible and objective data on exhibitions and to foster world-class exhibition standards.

Under this system, exhibition figures such as exhibition floor area, the number of participants, and the number of visitors are verified by independent, third-party auditors such as accounting firms. Also, exhibitions, meeting the necessary requirements, are awarded an International trademark.

The endorsement trademark is a symbol of transparent and credible exhibitions. It is also an effective means of differentiating an exhibition from a number of similar, competing exhibitions.

Endorsement Requirements

- Required
 - Held at least three times previously
 - Must provide special support and information for foreign visitors or exhibitors.
 - Application forms, advertising/PR materials and catalogues are in languages other than that of the host country.
 - Selling products within booths are prohibited.
- At least one condition must be satisfied
 - Foreign exhibitors comprise at least 20% of total exhibitions
 - Exhibit space of foreign exhibitors comprises at least 20% of total exhibit space.
 - The number of foreign visitors is at least 4% of total visitors

※ Notice for Change of Endorsement

- From the beginning of 2009, the endorsement has been changed, according to the clause 14, Exhibition Industry Development Act. (Effective since September 22, 2008)
